**CLIENT: ORIENT OVERSEAS PROPERTY**

This project is one of the flagship residential developments by Orient Overseas Properties, a division of Orient Overseas Container Lines (OOCL). The site is located in a very prestigious residential district in Shanghai. LEUNG was involved in the conceptual design through design development and implementation of the landscape works. The heart of the project represents a private enclave indigenous to traditional residential courtyards in Shanghai.

The client Orient Overseas challenged the international consultant team to put together a project of the highest quality in material and finishes. All the hardscape material are locally sourced granite stone and brick, metal fabrication and water feature construction. This project sets a new standard for residential developments in the City of Shanghai.
