

CHETUMAL FEASIBILITY STUDY & MASTER PLAN
CHETUMAL QUINTANA ROO, MEXICO
CLIENT: CONFIDENTIAL

Chetumal is a 4200 acre (1700 hectares) site located in the inner coastal area of Bahia Chetumal in the state of Quintana Roo. LPD was retained to perform a feasibility study and the development of an ecotourism resort destination Master Plan. The first tasks to create this master plan is a thorough understanding of the site, it's environmental opportunities and constraints; develop a Vision and an overall development framework that promotes a strong sense of place and long term sustainability.
